Top Quality, Top Size Bulbs! Remember, the bigger the bulb, the bigger the flower! All varieties hardy in Cheyenne, and known to be naturalizing types, they will return year after year as long as you don't pick them, allow the foliage to die back naturally, and fertilize them 2 times a year with bulb fertilizer (Espoma Bulb-Tone is a popular brand). Plant in an area with good drainage to prevent rot. Plant as soon as possible upon receipt for best results. Bulbs love Cheyenne! Call Kathy Shreve at (307)-514-0268, or email at keshreve@yahoo.com with questions or for more information.
